ONE Fundraising for Donation of Basic Food Items to Families with Low Economic Resources in Peru

In the current difficult situation presented by COVID-19 globally, ONE Peru embarked on a fundraising initiative with the main objective and motivation to encourage cooperation and empathy of our employees.

Within Peru, there are several communities facing extreme poverty. This was further escalated by the job losses faced during the pandemic. Without the necessary economic resources, there was much struggle in trying to fulfill basic needs. For this reason, aside from the donation from our entity, employees in ONE Peru also voluntarily donated money to raise funds and purchase basic food items for these communities. By working with Juguete Pendiente, a non-profit organization which is well-recognized for carrying out fundraising campaigns all over Peru throughout the year, we were able to send our donations to thousands of homes located in Pachacutec Ventanilla, a district of Lima that has been identified as an area that requires financial aid.

As ONE, we feel blessed to have been part of a good cause, helping and letting each beneficiary knows that despite difficult times, hope still remains. Through active identification of these needs, we will continue to commit and focus on helping those who need us the most.
