Why ONE ePayment?

ePayment context and mission

Why ONE ePayment?

In today's world, the pandemic reinforced major shifts in payments behavior: **declining cash usage, migration from in-store to online commerce, adoption of instant payments.** Cash payments declined by 16 percent globally in 2020¹. Based on Drewry's latest white paper, large costs, inefficiencies, pain points and lack of automation results in the **total cost of invoicing and payment processing to the maritime industry of \$34.4 bn annually**². Therefore, ONE introduces the ePayment portal with three missions:

Provide a convenient and secure payment experience.

Offer contactless payment method to deal with the digital trend.

Help to reduce the admin effort in AR collection and reconciliation.

¹: McKinsey, [“Global payments 2021: Transformation amid turbulent undercurrents”](#);

²: Drewry Maritime Research, [“Invoicing and payment processes in global container shipping: ready for disruption?”](#)

**To build a win-win relationship
between ONE and customers**
